Chair Philip Isenberg
CA

Dear Chair Isenberg,

When you develop a new plan for the Delta, please reduce the risks to people and property by determining a safe yield for water exports.

A couple of years ago I drove from the Sierra foothills to Monterey. I was appalled at what I saw: well-maintained ranches abandoned; manicured orchards abandoned. People nor domestic animals were not to be seen anywhere. The scene was undescrivable--as if a horrendous apocalypse occurred killing all the inhabitants.

We know that it was legislation that caused this holocaust. Let's not make that mistake again. Government should never deprive people of a livelihood, especially when they own and work their land. Be civil minded in your deliberations.

Thank you for considering the above comments. I look forward to following the work of the Council as it develops the Delta Plan.

Sincerely,

Ms. Vivian Squibb
